

"The CRC has provided me with a close network of friends in recovery who are supportive through the process of getting and staying sober at UVM. We enjoy sober activities as a group, sharing meals together and going to 12 step meetings."

—CRC STUDENT

University of Vermont Collegiate Recovery Community

COMMUNITY THAT BUILDS A STRONG FOUNDATION

The **Collegiate Recovery Community (CRC)** at the University of Vermont offers the opportunity for students to pursue their education without sacrificing their recovery. Students within the CRC find connection to one another through the daily programs, the private Facebook group, the CRC class, dedicated housing, and the monthly activities. Our Counseling and Psychiatry Services (CAPS) additionally offers one-on-one counseling and a weekly Recovery Group. Burlington has a strong 12 step fellowship, and a wonderful young people's following in Alcoholics Anonymous (AA), Narcotics Anonymous (NA), Marijuana Anonymous (MA), and Cocaine Anonymous (CA). In addition to having dedicated space to the Collegiate Recovery Community on campus, there is a 12 Step Club House downtown, and several grass-roots organizations dedicated to young peoples' recovery.

Programming Opportunities:

- ▶ Weekly lunches
- ▶ Drop-In space
