

An ACHF Vaccine Roundtable Hosted & Facilitated By NECHA

Increasing immunization compliance on your campus: Strategies to advocate for institutional support and student engagement

Wednesday, August 4th, 12:00 - 2:00 pm EST

NECHA is grateful for an opportunity offered by the American College Health Foundation (ACHF) to host a

FREE interactive roundtable for NECHA | NYSCHA on August 4th from 12-2pm EST.

NECHA sees the COVID pandemic as a unique opportunity for IHEs to spotlight the importance of health and wellness and use this as an opportunity to work with IHE leadership on public health initiatives as well as increase student engagement on immunization compliance in ways that were not previously possible. The session is an interactive facilitated roundtable for attendees to bring their immunization compliance plans, goals, challenges, and visions. Attendees will have the opportunity to consult with experts and colleagues and take away tangible action plans to bring back to their IHEs.
